Program Directors Meeting 2016

Pediatric Endocrine Society Baltimore, MD

Agenda

General Announcements

Match Update

Workforce Data

Changes in ACGME Program Requirements

Entrustable Professional Activities (EPAs)

Subspecialty EPAs

Curricular component development

Entrustment scales

SPIN EPA Project

General Announcements

Mentoring Workshop

Friday 4 PM to 6 PM, Hyatt Regency, Constellation D Ballroom

Fellows "Meet and Greet"

Friday 6 PM to 7 PM, Hyatt Regency, Annapolis Room

Fellows Committee lunch meeting

Sunday at 11 AM to 1 PM, Hyatt Regency, Pratt Room

Match Update

2015 match (for 2016): 57 programs participated (80%)

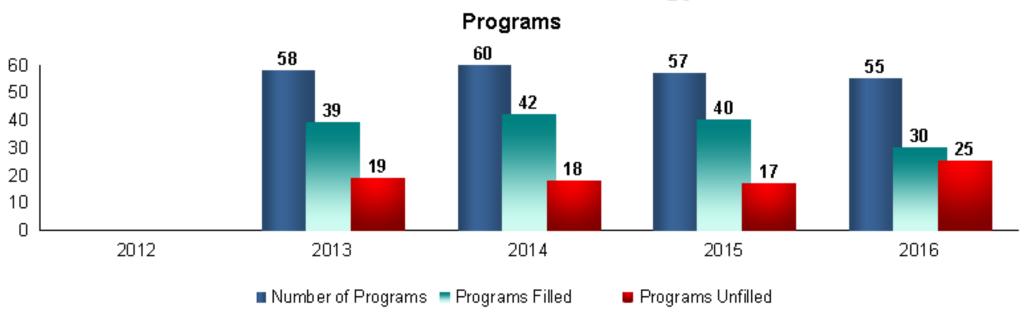

Decrease of 2 programs from 2014

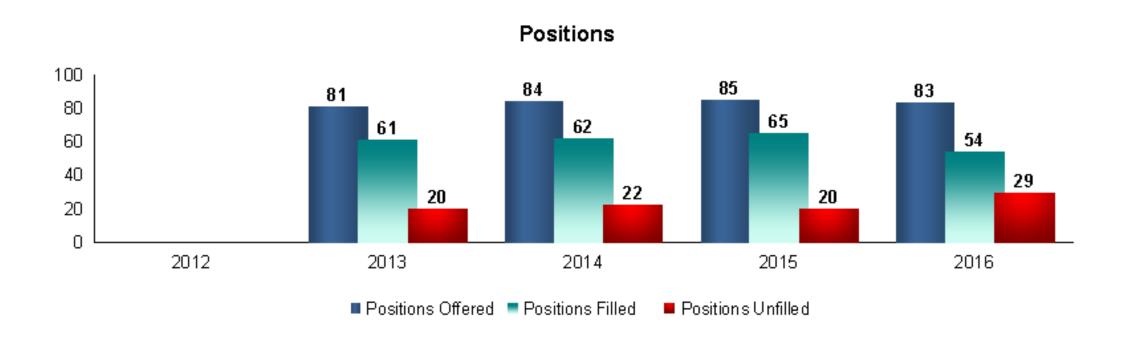

75% of programs required to continue in the match

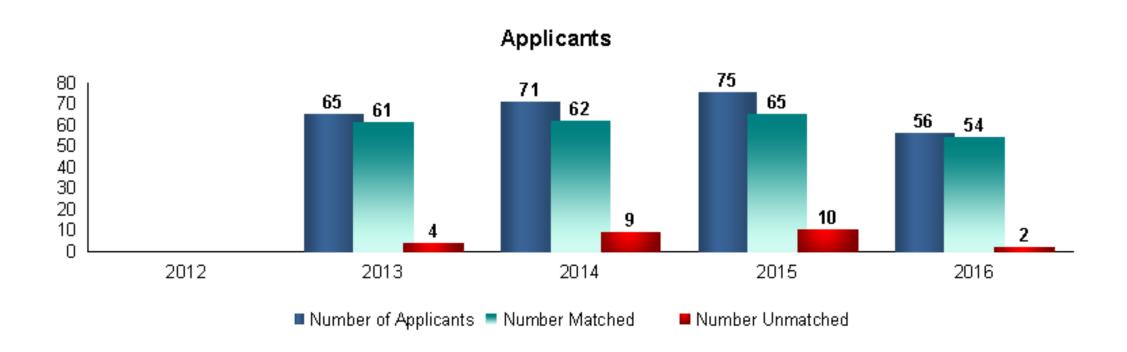

83 positions in 2015 match

Decrease of 2 positions from 2014

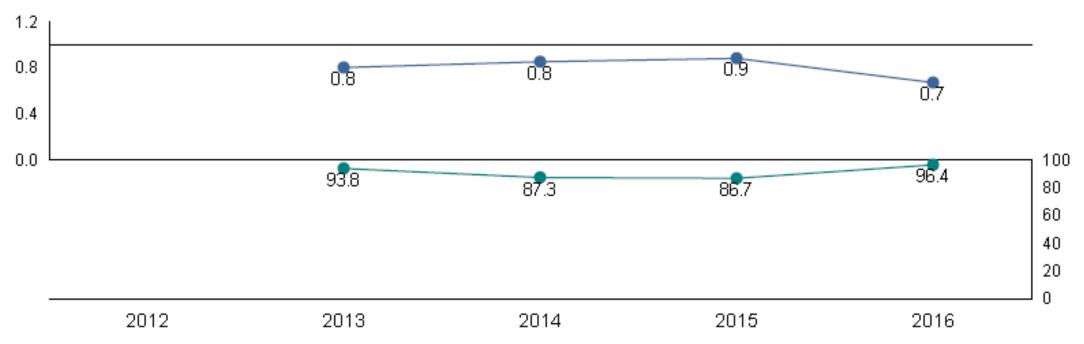

Pediatric Endocrinology

Number of Applicants Per Position and Percent of Applicants Matched

Began participation in the SMS for appointment year 2013.

Comparison with Other Subspecialties

| | | | 2014 | | | | 20 | 15 | | |
|--------------------|--------------------|----------------------|------------------------|--------------------|---------------------------|-----------------------|----------------------|---------------------|--------------------|---------------------------|
| | Number of Programs | % Programs Filled | Number of Positions | % Positions filled | % Applicants Unmatched | Number of Programs | % Programs Filled | Number of Positions | % Positions filled | % Applicants Unmatched |
| Endocrinology | 60 | 70 | 84 | 73 | 12 | 57 | 70 | 85 | 76 | 13 |
| Neonatology | 90 | 90 | 241 | 95 | 7.6 | 92 | 95 | 242 | 98 | 19 |

Fellowship Training Trends

| Year94% | Number of Programs | Number of First Year Fellows | Total number of Fellows |
|-----------|--------------------|---------------------------------|-------------------------|
| 2009-2010 | 67 | 86 | 250 |
| 2010-2011 | 67 | 98 | 261 |
| 2011-2012 | 67 | 94 | 261 |
| 2012-2013 | 67 | 94 | 272 |
| 2013-2014 | 69 | 91 | 263 |
| 2014-2015 | 69 | 90 | 258 |
| 2015-2016 | 69 | 90 | 247 |

85 in match (94%)

Pediatric Endocrinology Training Level Tracking Data

| | | Training Level | | |
|-------------------------|----|----------------|----|-------|
| Year Starting July 1 | 1 | 2 | 3 | Total |
| 2000 | 49 | 32 | 38 | 119 |
| 2001 | 53 | 51 | 33 | 137 |
| 2002 | 73 | 47 | 50 | 170 |
| 2003 | 79 | 61 | 48 | 188 |
| 2004 | 71 | 72 | 57 | 200 |
| 2005 | 76 | 72 | 65 | 213 |
| 2006 | 89 | 75 | 66 | 230 |
| 2007 | 77 | 80 | 68 | 225 |
| 2008 | 93 | 81 | 76 | 250 |
| 2009 | 86 | 89 | 75 | 250 |
| 2010 | 98 | 79 | 84 | 261 |
| 2011 | 94 | 94 | 73 | 261 |
| 2012 | 94 | 85 | 93 | 272 |
| 2013 | 91 | 90 | 82 | 263 |
| 2014 | 90 | 80 | 88 | 258 |
| 2015 | 90 | 81 | 76 | 247 |

Training Year

Thoughts from Program Directors

Did you receive fewer applications this year than in previous years?

Some note a progressive decrease in numbers over the last few years.

Some note a decrease in the quality of applicants.

Did you have applicants who declined interviews with your program? Several people reported applicants who declined or canceled interviews

Did applicants express any desire for a more clinically oriented fellowship (shorter or with less emphasis on scholarly activity)?

Many applicants with more clinician-educator interest or pure clinical interest

Have you noticed a trend in declining interest in endocrinology among residents in your institution?

Lower "visibility" within training programs
Initial interest, but no resulting application ?compensation and lifestyle

Other Comments

Reasons for perceived decline in interest:

- It does not help in recruiting fellows when they see current academic faculty stressed by increased competition for grants
- Relatively low salary and high clinical workload seem to influence residents away from endocrine.

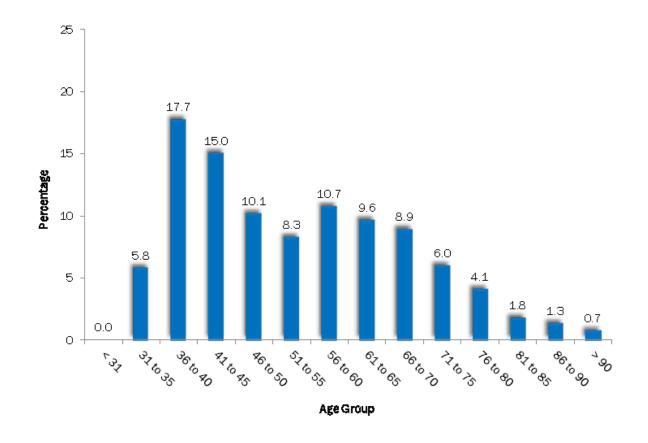

Clinical training programs for those who do not want to pursue research

- Emphasis on particular skills in clinical care (FNA, thyroid ultrasound, DXA reading, implant placement, etc.) and development of expertise
- Continue as three year program to insure that graduates continue to be viewed as specialists

Pediatric Endocrinology Diplomates Age Distribution

(as of December 31, 2015)

| Age Group | П | % |
|-----------|-------|-------|
| < 31 | 0 | 0.0 |
| 31 to 35 | 101 | 5.8 |
| 36 to 40 | 309 | 17.7 |
| 41 to 45 | 262 | 15.0 |
| 46 to 50 | 177 | 10.1 |
| 51 to 55 | 144 | 8.3 |
| 56 to 60 | 187 | 10.7 |
| 61 to 65 | 168 | 9.6 |
| 66 to 70 | 155 | 8.9 |
| 71 to 75 | 104 | 6.0 |
| 76 to 80 | 71 | 4.1 |
| 81 to 85 | 31 | 1.8 |
| 86 to 90 | 23 | 1.3 |
| > 90 | 13 | 0.7 |
| Total | 1,745 | 100.0 |

Changes in ACGME Program Requirements

Requirement #: I.A.4.

Requirement Revision (significant change only):

Program leadership, including the program director and associate program director(s), must be provided with a minimum total of 20-35 percent full time equivalent (FTE) protected time for the administration of the program (not including scholarly activity), depending on the size of the program. (Core)

Requirement #: I.A.5.

Requirement Revision (significant change only):

The Sponsoring Institution must provide support for a program coordinator(s) and other support personnel required for operation of the program. (Core)

EPAs: What the PDs are entrusted to know

PES PD Meeting 29 April 2016

Entrustable Professional Activities (EPAs)

Domains of Competence

Domains of Competence

Domains of Competence

Competency

Competency

Competency

Competency

Milestones

Milestones

Milestones

Milestones

Milestones

Milestones

Objectives of the EPAs

They describe the **routine activities** of the pediatric endocrinologist and provide the **guidelines for training**.

We should be able to **define the specialty** by a limited number of EPAs.

EPAs can be **mapped** to domains of competence, competencies and milestones.

EPAs offer a **new method of assessment** that focuses on the level of supervision needed to carry out the activity. The targeted question becomes "is this learner ready to be entrusted to perform this professional activity without supervision?"

Our Tasks

- ☐ To define the EPAs for our subspecialty
- ☐ To map the EPAs to the competencies

EPAs that cross the generalist to subspecialist role:

- Provide for and obtain consultation from other health care providers caring for children. (Read More)
- Contribute to the fiscally sound and ethical management of a practice (e.g., through billing, scheduling, coding, and record keeping practices).
 (No. 13 General Peds)
- Apply public health principles and improvement methodology to improve care for populations, communities, and systems. (No. 14 General Peds)
- Lead an interprofessional health care team. (No. 15 General Peds)
- Facilitate handovers to another healthcare provider. (No. 16 General Peds)

EPAs that are common to all subspecialties:

- Engage in scholarly activities through the discovery, application, and dissemination of new knowledge. (broadly defined) (Under construction)
- Lead within the subspecialty profession. (Read More)

Endocrinology

1. Demonstrate competence in understanding the reasons to perform and interpret the common procedures of the pediatric endocrinologist.

2. Facilitate the transition of patients with endocrine disorders from pediatric to adult health care.

3. Manage patients with acute endocrine disorders in ambulatory, emergency or inpatient settings.

4. Manage patients with chronic endocrine disorders in the ambulatory or inpatient settings.

The Four EPAs

Manage patients with acute endocrine disorders in ambulatory, emergency or inpatient settings.

Manage patients with chronic endocrine disorders in the ambulatory or inpatient settings.

Facilitate the transition of patients with endocrine disorders from pediatric to adult health care.

Know the indications for performing the common procedures of the pediatric endocrinologist and be able to interpret the results.

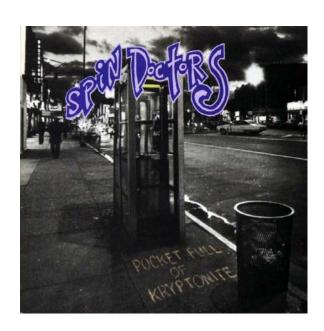

Our Tasks

- ☐ To define the EPAs for our subspecialty
- ☐ To map the EPAs to the competencies

To participate in the EPA Study: Thank you for your participation!!!

Study by the Subspecialty Pediatrics Investigator Network (goal was to have $\geq 20\%$ of programs in the subspecialty to participate)

Hypothesis: Milestones will be a valuable method with which to determine level of entrustment for the pediatric subspecialty EPAs

Methods

One week before CCC meeting, FPDs assigned level of supervision for each fellow for the 6 EPAs

At CCC meeting, CCC assigned milestone levels for the 29 subcompetencies mapped to the 6 EPAs

Then, CCC assigned level of supervision for each fellow for the EPAs

Data collection: Fall 2014 and Spring 2015

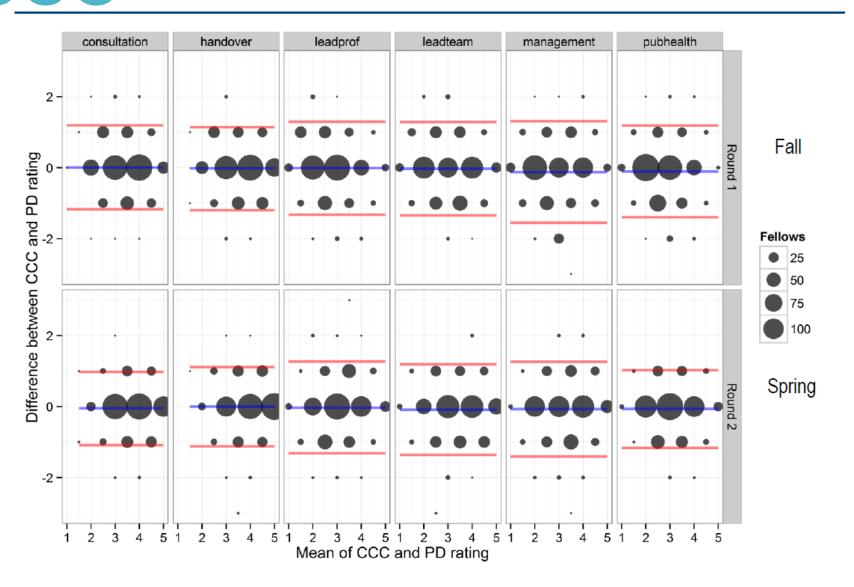

Number of Participants

| Study Participation | Fall 2014 | Spring 2015 |
|---|-----------|-------------|
| Institutions | 78 | 81 |
| Programs (n) | 208 | 209 |
| Subspecialties with Program Participation > 20% (%) | 79 | 79 |
| Total Number of Fellows | 1011 | 1036 |
| 1 st year fellows (n) | 352 | 369 |
| 2 nd year fellows (n) | 332 | 336 |
| 3 rd year fellows (n) | 327 | 331 |

Subspecialty Participation

| Subspecialty Participation | Fall 2014 | Spring 2015 |
|----------------------------|-----------|-------------|
| Adolescent Medicine | 10 (36%) | 11 (39%) |
| Cardiology | 14 (25%) | 12 (21%) |
| Child Abuse | 10 (40%) | 10 (40%) |
| Critical Care | 24 (38%) | 21 (33%) |
| Developmental & Behavioral | 17 (46%) | 18 (49%) |
| Emergency Medicine | 19 (26%) | 19 (26%) |
| Endocrinology | 12 (18%) | 14 (21%) |
| Gastroenterology | 11 (19%) | 10 (18%) |
| Hematology-Oncology | 14 (20%) | 13 (19%) |
| Infectious Diseases | 14 (23%) | 16 (26%) |
| Neonatology | 33 (34%) | 35 (36%) |
| Nephrology | 7 (16%) | 6 (13%) |
| Pulmonary | 12 (23%) | 13 (25%) |
| Rheumatology | 11 (32%) | 11 (32%) |

Bland-Altman Plot: FPD on CCC

Our Tasks

- ☐ To define the EPAs for our subspecialty
- ☐ To map the EPAs to the competencies
- ☐ To write the curricular components for our EPAs

Curricular components were written Early 2016

More discussion at Training Program meeting Invite all the attend

Our Tasks

- ☐ To define the EPAs for our subspecialty
- ☐ To map the EPAs to the competencies
- ☐ To write the curricular components for our EPAs
- ☐ To develop a level of supervision scale for subspecialty specific EPAs and PDs will be surveyed to determine the minimal level needed for completion of fellowship

Next Steps: The EPA Scales

| FA | FACILITATE THE TRANSITION OF PATIENTS WITH ENDOCRINE | | | | |
|----|--|--|--|--|--|
| DI | DISORDERS FROM PEDIATRIC TO ADULT HEALTH CARE | | | | |
| 1 | Trusted to observe only | | | | |
| 2 | Trusted to execute with direct supervision and coaching | | | | |
| 3 | Trusted to execute with indirect supervision and discussion of information | | | | |
| | gathered and conveyed for selected simple and complex cases | | | | |
| 4 | Trusted to execute with indirect supervision and may require discussion of | | | | |
| | information gathered and conveyed but only for selected complex cases | | | | |
| 5 | Trusted to execute independently without supervision | | | | |

| | KNOW THE INDICATIONS FOR PERFORMING THE COMMON PROCEDURES OF THE PEDIATRIC ENDOCRINOLOGIST AND BE ABLE TO | | | | |
|----|---|--|--|--|--|
| IN | TERPRET THE RESULTS | | | | |
| 1 | Trusted to observe only | | | | |
| 2 | Trusted to determine testing and provide interpretation with direct | | | | |
| | supervision and coaching | | | | |
| 3 | Trusted to determine testing and provide interpretation with indirect | | | | |
| | supervision for simple cases only; complex cases require direct | | | | |
| | supervision | | | | |
| 4 | Trusted to determine testing and provide interpretation with indirect | | | | |
| | supervision and may require discussion of interpretation but only for | | | | |
| | selected complex cases | | | | |
| 5 | Trusted to execute independently without supervision | | | | |

MANAGE PATIENTS WITH ACUTE ENDOCRINE DISORDERS IN AMBULATORY, EMERGENCY OR INPATIENT SETTINGS Trusted to observe management only Trusted to manage with direct supervision and coaching Trusted to manage with indirect supervision and discussion of information gathered and conveyed for selected simple and all complex cases Trusted to manage with indirect supervision and may require discussion of information gathered and conveyed but only for selected complex cases Trusted to manage independently without supervision

| M | MANAGE PATIENTS WITH CHRONIC ENDOCRINE DISORDERS IN | | | | |
|----|--|--|--|--|--|
| Al | AMBULATORY, EMERGENCY OR INPATIENT SETTINGS | | | | |
| 1 | Trusted to observe management only | | | | |
| 2 | Trusted to manage with direct supervision and coaching | | | | |
| 3 | Trusted to manage with indirect supervision and discussion of | | | | |
| | information gathered and conveyed for selected simple and all complex | | | | |
| | case | | | | |
| 4 | Trusted to manage with indirect supervision and may require discussion | | | | |
| | of information gathered and conveyed but only for selected complex cases | | | | |
| 5 | Trusted to manage independently without supervision | | | | |
